Pittsburgh-PIT

Morgantown-MGW

1. Are you legal to fly based on the current weather conditions at Pittsburgh Airport?
2. You have been hired to inspect the towers north of Morgantown airport. You need to inspect from an altitude of 400 feet above each tower. They are just north of the class Delta airspace, west of Point Marion. Given the current METAR for Morgantown, are you legal to fly this mission?

3. What is the current altimeter setting for the Providence, RI airport?
4. What is the lowest ceiling reported for Providence?
5. What are the current wind speed and direction for Bozeman? Are you legal to fly based on this METAR?
6. What are the current winds conditions in Livingston? Are you legal to fly based on the current METAR?
7. Which airports are reporting weather that would make drone flight illegal?
8. Which airports are reporting precipitation?
9. Do any airports have clear skies?

10. Based on METARS, at which airports would you expect to see fog?
